

2015 UNDY 5000 WALK FOR COLON CANCER

Every year the physicians and staff of Specialists in Gastroenterology and the Advanced Endoscopy Center participate in the UNDY 5000. This is a 5K, one mile walk/run to increase awareness of colon cancer. This family friendly event raises funds and awareness while also celebrating survivors and honoring loved ones we've lost to colon cancer. The 2015 event was held on Saturday, March 28, at the Mundy in Forest Park. Each year, SIG/AEC has been in the top 5 groups of fundraisers for this event. We raise over \$5,000 every year for this special event. Patients, family and friends are encouraged to join the SIG/AEC Fight Colon Cancer Team.
